DISCIPLINE

The Himalayan International School believes in inherent discipline. However, it expects each and every one to abide by the rules and regulations of the school. Students are to observe strict discipline not only inside the school premises, but also outside and bring a good name to their Alma Mater. Each Student should have a sense of belonging and feeling pride for the school.

SOME BASIC ELEMENTS OF THE PHILOSOPHY OF OUR SCHOOL:

Development of aesthetic sense in children is adequately taken care of through introduction of music and other fine arts. Those who are endowed with better potentialities are taught to do more but all are encouraged to appreciate what is taught in the music and fine arts. The programme starts right from the nursery classes, where children sing rhymes, the programme continues in primary section through action songs in musical tunes and notes. In senior classes the children are taught vocal/instrumental music and dancing. It is hoped that this education may be able to bring about peace and harmony. Personality grooming activities will be done through theatre workshop.

Free expression through Drawing and Painting is also an integral part of the school education from the earliest stages. It is needless to say that all efforts are made to help the children develop their personalities.

SOCIALLY USEFUL PRODUCTIVE WORK AND ACTIVITIES / CCE PROGRAMME

Common craft such as paper folding and cutting is introduced in the primary stages. Making meaningful collections and learning their classification is done by children.

Right from the primary classes, children start learning simple craft. Their activities are continued and improved upon in the middle classes. Making working models and toys, is also taught. In senior classes workshop practice will be given. All such activities will give them competence and confidence in making use of technological development effective in their daily life.
